

# STRONG & ESSENTIAL

## RELIABLE „MADE IN GERMANY“

### A CLEAR-CUT CASE: LANIDUR® FOR YOUR REQUIREMENTS

LANIDUR® ensures optimum product quality and enables improved system availability and high cost-effectiveness thanks to long service lives.

Applications and functions:

- » Perfect surface protection during storage and transport
- » Sustainable improvement of accident protection
- » Continuous cleaning of cylindrical rollers
- » Reliable removal of excess oils
- » Durable brake felt in the brake framework
- » Clean stripping in the fabrication process
- » Precision-fit limit stop felt in the production process
- » Uniform oiling before cutting and punching

## OUR MISSION: ENVIRONMENTAL AWARENESS

Our focus is on reducing waste and CO<sub>2</sub> emissions:  
More than 90% of the fibers we use are PET.  
Over 80% of our LANIDUR® METAL is made from recycled PET.

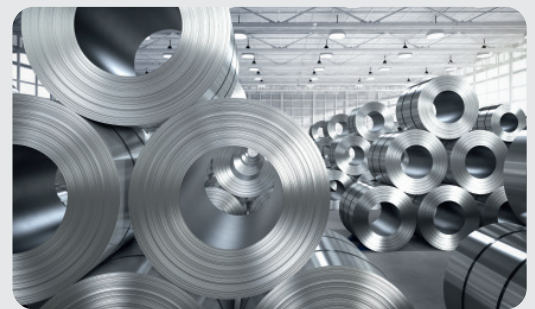

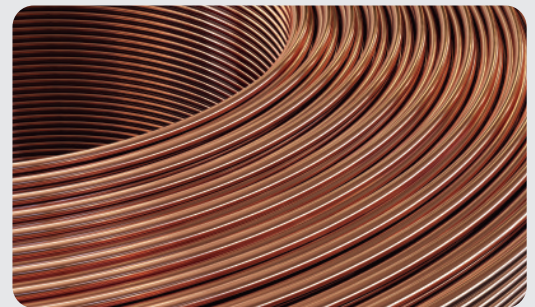

This is how we ensure varietal purity and thus make a further contribution to the careful use of resources and the environment.

LANIDUR® is harmless in terms of pollutant emissions because it is produced without any chemical binders. Furthermore it is completely free of mineral fibers and formaldehyde.

## THE UNIVERSAL MATERIAL FOR THE MOST DIFFICULT ASSIGNMENTS

We supply the industry with high performance products for their extreme demands and requirements:

- » Thermally bonded
- » Fixable with Velcro
- » Available as a washable version
- » Absorptive for lubricants
- » Thicknesses up to 25 mm
- » Densities from very soft to very hard
- » Available in rolls or custom cut
